PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in Power BI, SQL, Python, ETL, and data visualization through academic projects and internship. Proven ability in transforming raw data into meaningful business insights using dashboards, KPIs, and DAX measures. Seeking an entry-level analytics role to support business reporting, stakeholder insights, and data-driven decision-making.

EDUCATION

- B. Tech - Electronics & Communication (2021 – 2025)
  MVR College of Engineering & Technology
  CGPA: 7.67/10
- Intermediate (MPC Stream) (2019 – 2021)
  Sri Gowtham Junior College
  GPA: 8.48/10
- Secondary School (S.S.C) (2018-2019)
  Sri Viswa Bharathi High School
  GPA: 9.7/10

TECHNICAL SKILLS

Programming & Querying: Python (Pandas, Matplotlib, NumPy), SQL (Joins, Subqueries, Aggregations)
BI & Analytics: Power BI (DAX, Power Query, Data Modeling, Dashboards), Tableau, Excel
Data & Analytics Concepts: Data Cleaning, ETL, Data Visualization, Business Intelligence, KPIs
Tools & Databases: Power BI Service (Publishing & Sharing), VS Code, MS Excel, SQL Server
Reporting & Communication: Business Reporting, Dashboard Publishing, Data Presentation (PPT)

ACADEMICS & DATA ANALYTICS PROJECTS

Insurance Analytics Dashboard

- Analyzed policy, premium, claims, and customer datasets to identify business risks and performance trends.
- Built interactive BI dashboards tracking loss & claim ratio, policies, premium growth, and agent performance.
- Implemented data modeling using fact and dimension tables with relationships and DAX measures.
- Collaborated on dashboard design aligned with business requirements and reporting needs.
- Generated insights on high-risk policies and loss trends to support risk assessment and business decisions.

Tools Used: Power BI, DAX, Excel

Sales & Performance Analytics Dashboard

- Performed data cleaning, transformation, and ETL on raw sales datasets.
- Designed end-to-end Power BI dashboards with KPIs, drill-through, slicers, and filters.
- Built optimized DAX measures for revenue, growth %, and performance tracking.
- Ensured data accuracy and model performance optimization.
- Delivered business insights through dashboard publishing and reporting

Tools Used: Power BI (DAX, Data Modeling), SQL, Excel

Academic Project – Solar-Powered Bluetooth Controlled Grass Cutting Robot

- Built an automated grass cutter using solar panels and Bluetooth (HC-05) modules.
- Integrated system components including DC motors and Arduino for movement and control.
- Reduced manual effort by >90%, emphasizing sustainable energy usage.

INTERNSHIP

Python Programming Intern

BIST Technologies Pvt Ltd. | APSCHE

- Completed 180-hour virtual internship in core Python programming.
- Debugged code issues and improved >90% of program efficiency through optimized logic.
- Gained hands-on knowledge in data structures and algorithmic thinking.
- Applied Python concepts for data handling and logical problem-solving.

CERTIFICATIONS & ACHIEVEMENTS

- Data Analytics with AI - VCUBE Software Solutions
- Python Programming - SCALER
- Power BI Workshop - Endorsed by Office Master
- Python Programming Workshop - APSSDC
- Arduino Workshop - Anitha Technologies
- Student Coordinator - Tech Fest & Class Representative.
